## What is Pregnant SEAS?

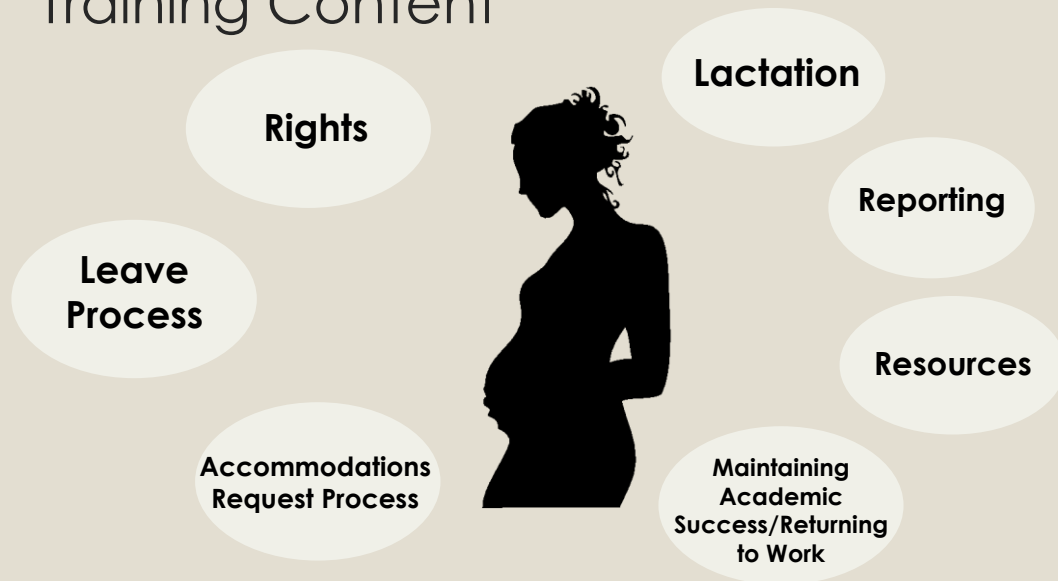

*In an effort to better provide our pregnant, parenting, and lactating students with support and education, we have created a program called, Pregnant SEAS (Pregnant Scholars Expecting Academic Success). Pregnant SEAS provides students with workshops and 1:1 consultations, where students can learn about; pregnancy rights, lactation rights, student resources, lactation education, and much more. We hope this program will encourage more students to request accommodations earlier in their pregnancy so we can connect them to personal and academic support resources as early as possible.*
